FOR IMMEDIATE RELEASE
**TME announces the new
Xtrema xG Balancing Charger / Wattmeter Combo**

Riverview, Florida. –
November 10, 2009 -

Today, Tejera Microsystems Engineering, Inc. (TME), a leading innovator and manufacturer of RC accessories, announced the release of the new

**Xtrema xG Balancing
Charger/Wattmeter Combo**

(model XTR-LWMXG). This new factory direct only combo includes the acclaimed Xtrema Charger /Wattmeter bundled with two balancers, the interface

module and computer data cable for the low price of **\$199.95** The Xtrema xG is capable of charge balancing up to one 10s pack at up to 8 amps. It also can parallel charge balance two 6s packs simultaneously expandable to four 6s packs with the purchase of extra balancers and interface module. The included wattmeter connects to your computer to give you a power analyzer capable of graphing watts, volts, amps and horsepower for motors up to 6000 watts! The balancers can also be used independently or connected to the computer with special software for performing a multitude of tests and setup options. This special feature rich combo will be available direct from TME representing a savings of over \$143 if purchased separately from last years price.

TME's part number for the Xtrema xG is XTR-LWMXG. It will sell for \$199.95 and be available direct ONLY on their web site at www.TMEnet.com

About Tejera Microsystems Engineering, Inc.

TME has been a leader and innovator in the RC market since 1990 designing and bringing to the market popular American made products such as the Guardian Angel, Auto-trickle Adapter, ChargeMinder , SmartSmoker Simple Smoke pump and the Xtrema line of Lithium chargers and balancers.
